

SIMPLIFIED AUTOMATION FOR TRAVEL ARRANGEMENTS & RESERVATION

**An Integrated Corporate Travel
Solutions for Flying Through The Clouds**

Optimize and expand the corporate

Best-in-class travel technology

Today's business travel ecosystem relies on a network of resources to keep travelers connected, productive, and on the move. Rising travel costs, unpredictable economies and changing business models are driving more companies to seek travel technology partners that can help them reduce business travel costs, increase policy compliance, and streamline the travel management process.

SAFAR is your roadmap to profits and productivity. Our automated solutions integrate all phases of travel management, uniting the business traveler, travel management Services, travel manager, Hotel, Cab facility, Bank and finance officer on a shared corporate travel destination: business success.

The right technology solutions are critical for a successful travel program. And creating greater value is key to your business success. Only SAFAR corporate Travel Management Services deliver the competitive edge you need to manage business travel seamlessly, efficiently and cost-effectively.
